From the anteroom you descend 12 more steps and find yourself in a complete lodge room 50 feet long, 30 feet wide and 30 feet from floor to ceiling, a natural arch in the center. The stains and seats are bed rock and the temperature in the lodge room is so uniform the year round, that no heat or ventilation is required.

Friday evening the Woodward C. and O. Accommodation stock killed a valuable cow near South Portsmout. This makes the sixth cow in three months that has been killed near there.

Arrived at the office, Mr. Whitaker was placed in charge of six prisoners.

Mr. John L. Whitaker was attorney or the offenders.

He desired a "private" conference with his clients, and Judge Wadsworth permitted them to go with him to his office with the understanding that officer Purnell should accompany them.

The attorney did not object to this arrangement, and all left the Courtroom together.

Arrived at the office, Mr. Whitaker was placed in charge of six prisoners.

Mr. Purnell then told him that he could take them, either one at a time or collectively, into the back room and talk to them, and he would remain in the front room.

This did not suit the attorney, who told Purnell he didn't want him in his office at all, and directed him to take a seat out on the sidewalk.

As Mr. Purnell was responsible for the prisoners, who had been giving the officers the "slip" for several days, he refused the kind offer of Mr. Whitaker.

Thereupon Mr. Whitaker grew irate, and headed the procession for the Courthouse to lay his tale of woe before Judge Wadsworth.

He made his statement to the Court without interruption.

While officer Purnell was stating his side of the case, Mr. Whitaker broke in repeatedly, flatly denying what the officer said.

Finally, exasperated beyond control, Purnell warned Whitaker not to contradict him again, and for this he was fined \$2 and costs for contempt of Court.

This Whitaker replied that he wouldn't say that outside the Courtroom, and just then getting his eye on the officer's gun, exclaimed,

"There's a hot pistol on now!"

Purnell promptly took the gun from its holster and laid it on the Clerk's desk.

Thereupon Mr. Whitaker reserved his offensive remarks and Purnell hit him once or twice with his fist.

Quick as a flash the Court officers interfered, the men were separated, and Judge Wadsworth issued a warrant for Mr. Purnell, which was served upon him by Chief Ort.

The warrant was for a breach of the peace, for which he was fined \$5 and costs.

All this occurred within ten minutes following the difficulty.

Mr. Whitaker was present in Court during these proceedings, and it was learned no one heard him.

The warrant was for a breach of the peace, for which he was fined \$5 and costs.

Subsequently Mr. Whitaker procured a warrant for officer Purnell, charging him with assault and battery.

The case was heard before Special Judge Frank P. O'Donnell, Police Judge

## PARDONED PURNELL.

That's What Governor Bradley Did on Saturday.

## BRIEF HISTORY OF THE CASE.

Wadsworth declining to sit, he being a brother in law of Mr. Whitaker.

City Attorney John L. Chamberlain, also a relative of one of the parties, declined to prosecute, and Mr. Whitaker was represented by Commonwealth's Attorney James H. Salee, assisted by Thomas M. Wood, who acted for Chamberlain.

Judge Thomas R. Phister appeared for Mr. Purnell.

Mr. Purnell's lawyer plead former conviction.

But the forensic efforts of the Commonwealth's Attorney satisfied the able Court that it was a "set up job" between the Police Judge, the Chief and Special Officer Purnell, and he held him in \$300 to the Grand Jury, which was then in session.

Of course, with the Commonwealth's Attorney to assist them, it was an easy matter for the Grand Jury to frame true bills against Purnell on two counts—as assault and battery and carrying a concealed weapon.

The decision of Judge Harbeson declaring Wadsworth's appointment as Special Policeman legal, which was rendered a day or two following the aforementioned indictment by the Grand Jury, effectively disposed of the charge of carrying a concealed weapon, for as an officer he had the right to carry it.

At the adjournment of the Circuit Court the case went over to the November term.

And that one of the city's officers should not rest under an unjust accusation all the facts in the case were laid before the Governor.

Legal notice was served upon the Commonwealth's Attorney, as the Governor's rule provides, that application for pardon would be made on a certain day, and that officer, influenced doubtless by the subsequently-discovered unjustice of the proceeding against Mr. Purnell, did not interpose a single objection, which is greatly to his credit.

The papers that went to the Governor were accompanied by a petition signed by most of the leading business and professional men of the city.

And on Saturday, when the limit had expired in which the Commonwealth's Attorney was given time to file a protest, Governor Bradley issued orders for Mr. Purnell on both counts in the indictment.

This whole proceeding was a "side issue" to the contention between the Executive and the Legislative branches of the city government:

And at every step the "higher authorities" have decided in favor of the Executive branch.

## MAYSVILLE—KNOXVILLE.

### OUR BOYS WIN THREE OUT OF THE FOUR GAMES.

The Roentgen X rays were not necessary to determine that Saturday's game between the Maysville Kernels and the Knoxville Indians was the most extraordinary game of the entire series played by these two clubs.

There were runs made, it is true; but the game as played was positively the best one.

Newton, the lad from the Hoosier State, was in the points for Maysville, and so great was his work that he was not only tendered an ovation by the people present, but he was presented with one of the handsomest bouquets that could be purchased.

He desires through the columns of The Ledger to extend his thanks to the donors. He would have delivered a speech, but his modesty prevented him.

Lautie, the little shortstop, more than redeemed himself, and he, too, was praised up above A.

Lever, who is a second "Gladiator" Browning with the stick when that latter was in his prime, was one of the winning features of the game, he making a long drive for three bases to left center, scoring Earle; and throughout the entire game his presence alone gave the boys the confidence that made them play winning ball behind Newt.

The Indians were able to score in one inning only—the third—and then by a few costly errors.

## Silverites

Fairly good over our Silverware—it's so rich looking they can't see why our silver isn't used more. It's better for knives and forks and spoons—better gold for all. There are some very nice pieces of silverware in town as we have here, all different shapes and fancies.

Silver Pitcher, silver Jug, sugar Bowls, Silver Knives, Silver Forks, Silver Spoons, Butter Dishes, Silver Pickle Jars, Silver Jam Jars, Silver Accessories, Silver salts and Silver plates.

There's nothing in silver that is not here, and we want you to see our silver display—Prices are very speak for themselves.

J. BALLENDER, Jeweler, Maysville, Ky.

They put up a good article of ball throughout the entire game, at no time losing sight of a chance to work a bluff on the umpire—but he was not of the bluffing material.

They were clearly outclassed at every point, especially at pitching.

But one of the best things that could have happened during the entire series was the excellent treatment the Indians received while here. Not a single thing occurred to make their visit unpleasant, and even one of them were willing to make it more extended.

So well pleased were they that several expressed a desire of staying and signing with the Kernels.

That's the way our people treat all that come to our city, however, and the Indians may rest assured that should they make us another visit the same good treatment will be accorded Management and his tribe of braves.

They left yesterday morning for Cincinnati, where they spent the day, and left that city last night for their hunting grounds.

They will play the Paris team in Knoxville Wednesday, Thursday, Friday and Saturday of this week.

The following is the score:

REPUBLICAN COMMITTEE.

A meeting of the Marion County Republicans  
Committee will be held in the parlor of the  
Central Hotel on Monday, July 13th—Court  
Court Day—at 2:30 o'clock p.m. The attend-  
ance of the members of the Committee is  
earnestly desired. All good Republicans cordi-  
nally invited.

CLARENCE MATHEWS, Chairman.

S. T. Hickman, Secretary.

The so-called Democratic Convention  
at Chicago injected into its platform a  
plank granting civil and religious liberty  
to every citizen. If there is any organiza-  
tion in this country that de-  
sires to deprive any citizen of his  
religious liberty—the right to worship  
God according to the dictates of his  
conscience.—THE LEDGER will be pleased  
to know what it is.

At Newport Judge HELM has ordered  
SCOTT JACKSON's property, consisting of  
a gold watch and chain, two gold rings,  
gold scarfpin and \$5.00 in money,  
handed over to his attorney, Hon. L. J.  
CRAWFORD. If Judge HELM would only  
complete the job by having JACKSON's  
miserable carcass turned over to some  
pavement factory he would rid the  
world of a most despicable villain.

**Editor Ledger:** Please say through  
the columns of THE LEDGER whether or  
not the same amount of silver will be  
in a Free Silver Dollar—should it carry  
as exists in the Silver Dollar of to-  
day and oblige  
A READER.

**Answer:** Presumably, yes, as to the  
activity of silver; for the free coiners  
are declared for the present ratio of  
to 1.

But we take it that our inquirer de-  
rives more particularly to know if the  
free Silver Dollar will be of the same  
quality as the present Silver Dollar.

As it is now, American silver coins  
is "good as gold" at home, and worth  
its face value anywhere in the civilized  
world, less about 5 cents for transpor-  
tation and insurance.

But when the United States, great  
and glorious as she is, undertakes the  
"free and unlimited" coining of the  
world's output of silver, its value must  
of necessity descend to that of the actual  
bullion price. The latter is now about  
equivalent to 53 cents to the dollar.

The success of Mr. MCKINLEY means  
that every silver dollar will remain as  
good as a gold dollar—that the laboring  
man who does \$1 worth of work will  
receive about 53 cents for it.

The success of Mr. BRYAN means  
that every silver dollar will remain as  
good as a gold dollar—that the laboring  
man who does \$1 worth of work will  
receive about 53 cents for it.

Which will you take?
